

## 5 Reasons to Add Frozen Beverages to Your Business with the ELMECO Clear Bowl Series From Louisiana Specialty Drinks!!!

### **1) Versatile Drink Types**

Opens a world of possibilities to expand your menu with granitas, slushies, frozen or iced coffee, frozen or chilled margaritas, smoothies, signature drinks, and more.

Our 2- and 3-bowl machines allow operators to provide multiple flavors from one machine. This saves on counter space and prevents you from having to purchase multiple machines to offer multiple flavors.

### **2) High Reliability, Low Maintenance**

The Clear Bowl Series machines are seal-less. This eliminates the possibility of beverage product leaking into the machine. It also means no wearing of seals over time and no regular lubrication or expensive seal replacements.

### **3) Easy Control**

The control pad on the front of the machine provides easy navigation. The control also has a range of diagnostic features, which allows operators to tell if the machine needs attention.

### **4) Attractive Design**

The contemporary, sleek design of these machines are great for merchandising drinks – and at the end of the day, it's all about selling delicious cold and frozen beverages.

### **5) Choice of Machines**

1.5-gallon machines One or two flavors or drink types | Can serve more than fifteen 12-ounce drinks.

3-gallon machines One, two, or three flavors or drink types | Can serve more than thirty 12-ounce slush drinks.
